

DYLAN HIAS

TECHNICAL ACCOUNT MANAGER

WORK EXPERIENCE

TECHNICAL ACCOUNT MANAGER

Ingram Micro | Oct 2025 - Present

Supporting my team by providing **technical expertise** on AWS services, architectures and best practices. Handling our resellers technical questions, assisting with **architectural design** and helping to translate business needs into practical **cloud solutions**. In addition to supporting sales and **customer engagements**, I deliver **technical deep-dive sessions** and **AWS training** to customers, helping them build cloud knowledge and accelerate their adoption of AWS.

APPLICATION ENGINEER

Contec | Aug 2025 - Oct 2025

Accelerated the development and configuration of the CPMS (Contec Production Management System), working with an amazing team to deliver reliable and scalable manufacturing solutions. My work involved using **SQL**, **T-SQL** and **Git** to design workflows, integrate with PLC's and ensure seamless data flow across production systems. And of course, plenty of **debugging**, **testing** and **optimization** to keep everything running smoothly.

SOFTWARE DEVELOPER

Easypost Connect | Jul 2023 - May 2024

Contributed to the development and unit testing of the Easypost Connect platform, collaborating with a skilled team to deliver **reliable** and **scalable solutions**. My work involved utilizing technologies such as **React**, **Typescript**, styled-components and **AWS** to create robust and efficient applications. I also leveraged tools like **NX** and **Jest** to maintain code quality and ensure seamless integration across components. Oh and ofcourse we cant forget about bug fixing and optimization.

COURSES

CLEAN CODE

Udemy | Nov 2025
